

IFG Drake[®]

Energy Policy

IFG Drake Ltd is committed to minimising the environmental impact arising from the consumption of energy, reducing energy costs and improving energy efficiency.

The company will ensure that the policy is managed effectively by:

- Taking responsibility for energy management at managing director level and having a designated director responsible for formulating and implementing an energy plan
- Communicating to all employees about energy issues
- Ensuring preventative maintenance procedures are in place to reduce the waste of energy
- Giving full consideration to energy efficiency when purchasing new equipment
- Working in cooperation with third party providers to audit and improve sources of inefficiency within processes
- Achieving and reporting targets set under climate change agreements

All employees should be energy aware and report wastage when it occurs.
